Mobil Oil Co. E. Chicago Term. (MOC) operates the site as a storage and distribution facility for finished products which are trucked, shipped or piped in from other Mobil Oil company refineries.

On 8/18/1980 MOC submitted a RCRA Part A interim status permit to operate as a hazardous waste storage and distribution facility for refinery products. The facility currently has the interim permit. FIT files do not contain further information.

Because the Mobil Oil Co. E. Chicago Term. is regulated under RCRA, it is recommended that E & E/FIT be issued a cease work order for this site.
